

Outcome 11.2: explain how industrialism changed the economy during the late Modern Era.

Use the text pp. 275-280 to complete the following.

1. **Gather Information:** What is meant by “industrialization” and the “Industrial Revolution”?

2. **Cause and Consequence:** In note form, summarize how the following developments in farming contributed to the Industrial Revolution.

Farming Developments	Brief description and impact
Enclosures	
Crop Rotation	
Breeding Methods	
What effect did these new developments have together?	

3. **Cause and Consequence:** In your own words, explain why the Industrial Revolution began in England?

4. **Examine Evidence:** Industrialization began in the textile (clothing) industry. In note form, summarize how the following inventions/innovations increased production:

Textile Developments	Brief description and impact
Flying Shuttle	
Spinning Wheel	
Water Frame	
Spinning Mule	
Power Loom	
Factories	
Cotton Gin	

5. **Examine Evidence:** Using examples from the text, explain how changes in transportation influenced life for people in Britain.

6. **Cause and Consequence:** What four effects came from the development of railroads in Britain?

7. **Comparison:** Compare the influence of the Industrial Revolution with the Neolithic Revolution. Which was more significant in affecting human lives? Explain.

Effects of the Industrial Revolution	Effects of the Neolithic Revolution

Which Revolution had the greatest effect on people’s lives? Explain.
